PLANT CATALOGUE

SWISS FLORAL CO.
PORTLAND ORE.

THE SWISS FLORAL CO.

takes pleasure in presenting to you this list of select nursery stock. This is only a partial list and is intended to inspire you to visit our nursery where a great variety of shrubs, perennials, conifers, rock plants etc. are growing, and where a source of pleasure is in store for you. Here you can make your selection of plants and delivery will be made when the season is right for planting. In the city free delivery is made to your door.

Those living outside of Portland and sending their order in by mail must include postage for parcel post orders. Shrubs, trees, perennials etc. are best shipped by express or auto-truck and may be sent collect. Remittance by money order, currency or for small amounts in 2 or 3 cent stamps will be acceptable. Refunds will be made if stock is no longer available. We guarantee all plants to be in perfect condition when delivered to carrier, but accept no responsibility for the safe arrival after they have been accepted and found in good order by the carrier. We guarantee stock true to name but cannot insure success as this is dependent upon factors beyond our control. Errors will gladly be corrected if advised of on receipt of stock.

PROPER LANDSCAPE DESIGN

The ultimate aim of landscape design is to produce the maximum of beauty consistent with utility. To attain this result, it is usually best to secure the services of an experienced landscape architect, whose assistance will not only serve to avoid errors but will also save expense and time.

The Swiss Floral Co. maintains a landscape design department which will gladly aid you in every way. Heading this department is the President of the Co., Mr. J.G. Bacher, who is perhaps the best known garden authority on the west coast, and has been in active gardening business since 1906. Also in the employ of the Company is Mr. T.O. Stapleton, trained landscape architect, who is able to present you with colored perspective and elevation sketches which enables one to see what their yard would look like if properly planned and planted. The smaller the yard the more necessary the plan because every square inch must be utilized to advantage.

We realize that so many factors enter into the proper planning of home grounds, which are so puzzling to the amateur, that the advice of experts is of unlimited value. We invite you to consult with us freely for suggestions and estimates. In plantings of some size, fee for plans will be credited on statement for plant material.

People everywhere are beginning to realize that the planting of their home along modern lines is an investment, not an expense. Your real estate dealer will tell you that a house with a modern designed planting commands a much higher price. A modern development of your grounds is a safeguard to your property and the best savings bank in the world. Phone or write us if you are thinking of garden alterations or new planting. We are able to serve anywhere within reasonable distance. Phone Sc. 6100 or Tr. 9865.

FOLLOWING IS A SELECT LIST OF
BROADLEAF EVERGREENS; GROWN AND OFFERED FOR SALE BY THE

SWISS FLORAL COMPANY

Abelia grandiflora:

Bronze-green foliage, arching branches. clusters of little
fragrant rosy-white flowers borne almost continually.

1 yr. old well branched	.35 each
2 yr. " " "	.50 "
3 yr. " " "	.75 "
Large specimens 30-36"	@ \$1.50 each

Flowers a double clear pink. March-April blooming.

3-6" @ .50 each	10-12" @ \$1.50 each
6-8" @ .75 "	12-14" @ 3.00 "
8-10" @ 1.00 "	

Azalea, Cattleya Lavender:

Flowers lavender. March-April blooming.

6-8" @ .75 each	10-12" @ \$1.50 each
8-10" @ 1.00 "	12-16" @ 2.50 "

Azalea, Macrantha:

Large Salmon-pink flowers. May blooming.
4-6" @ .50 each 10-12" @ \$1.50 each
6-8" @ .75 " 12-14" @ 2.50 "
8-10" @ 1.00 "

Azalea, Christmas Cheer:

Scarlet flowers, very compact foliage. Apr.-May blooming.
4-6" @ .75 each 8-10" @ \$1.50 each
6-8" @ 1.00 " 10-12" @ 2.00 "

Aucuba japonica:

Japanese Gold Dust Laurel. Scarlet berries in season.
6-10" @ .50 each 14-18" @ \$1.00 each
10-12" @ .75 " Lg. specimens @ \$3.50 to 7.50 each

Aucuba japonica; (green form)

Same as above with exception of green foliage.
Priced same as Gold Dust Laurel

Aucuba, Glauca nana:

A rare form of *Aucuba*, with glossy green leaves and scarlet berries.

6-10" @ .75 each
12-14" @ 1.25 "

Aucuba, (Males or Pollinizers)

Use one male, staminate, with from one to five pistillate forms, for proper pollenization. This is necessary if you want heavily berried shrubs.

8-10" @ .75 each
10-12" @ 1.00 "
12-16" @ 1.25 "

Arctostaphylos uva ursi:

Kinnikinnick or bear-berry. Scarlet berries. A native which is excellent for trailing over rock walls.

6-8" spread @ .50 each

Berberis verriculosa:

3 feet. Black fruit. Rather dwarf in habit small close-set leaves; spiny.

10-12" @ \$1.00 each
12-15" @ 1.50 "

Berberis Julianae:

6 feet. Upright growth, with shiny dark green leaves. Very attractive. Blue-black fruit.

12-15" @ .75 each

Berberis tricanthifolia:

Upright growth to 5 ft. Leaves light green, narrow, and 2 in. long. Fruit blue-black. Shrub is excellent for hedges.

18-24" @ \$1.25 each \$10.00 per dozen

Berberis Laevis (Levis, *Atrocarpa*)

Upright growth to 6 ft. Leaves somewhat larger than *Tricanthifolia*. 18-24" @ \$1.00 each

Brooms: (see *Cytisus*)

Camellias:

The world's finest evergreen shrub for Pacific Coast Gardens, may also be grown in pots or tubs in colder sections, and sheltered during winter. Will bloom beautifully indoors if kept in a cool room. They will grow in most ordinary garden soil, but prefer an abundance of leaf mould or peat moss. A north or east exposure is preferable and temperatures to 10° above will not harm them unless exposed to the full sun. Pot-grown plants may be set out any time, or may be flowered indoors and set out in the spring. The elegant shaped waxy flowers often unfold very early, and the beauty of them brings a thrill not soon forgotten. They start flowering in the smallest sizes.

For discriminating buyers, desiring the finest named specimens; healthy, vigorous plants that will add immeasurably to the beauty of a home or garden, we offer the following selected varieties:

Camellia Rosita:

Finely formed deep rose; symmetrical flower; medium size; very profuse bloomer. From 50¢ to \$2.50 each

Camellia Yuki-Botan:

Very large double imbricated flower, with pure white petals, turning back; late flowering; large roundish leaves; rare and very choice. \$1.50 to \$2.50 each

Camellia Hikaru-Genji:

A large light pink, with beautiful markings of lighter shading on the petals. 75¢ to \$2.50 each.

Camellia Shisu:

Deep scarlet, of symmetrical form; is very late flowering and compact; slow growth; medium large size. A rare beauty seldom seen but much admired. Pot grown plants. \$1.50 each.

Camellia Kumasaki:

Deep rose, of very large size, and elegant form, somewhat irregular; profuse flowering, and of lasting quality. Truly the outstanding sort in this climate. Pot-grown; from 75¢ to \$2.50 ea.

Camellia Pink Perfection:

Very formal light pink; of medium size, but great beauty. \$1.00 to \$4.00 each.

Camellia magnoliaeflora:

Flowers magnolia shaped; of a transparent pale pink; semi-double, with masses of yellow anthers in center. \$1.00 each.

Camellia Purity:

Symmetrically formed; pure white; of good size; very double. 75¢ to \$2.50 each

Camellia Arejishi:

Finely formed scarlet; of extra early flowering habit, with stems of bronzy color; shiny leaves. \$1.00 to \$2.00 each.

Camellia Wakanura variegata:

A very large flowering sort, with semi-double and single flowers, often on the same branch; color, bright red, with blotches of white, irregularly placed, some times pure red only. The large size and its changing colors make this a most interesting and showy sort, but of slow growth. Pot-grown. \$1.00 to \$3.00 each.

Camellia Caprice:

Pure white double, with golden stamens. Pot-grown. \$1.00 to \$2.50 each

Other sorts are also on hand.

Cotoneaster glaciealis:

Low growing well branched specimens.
10-12" @ .75 each

Cotoneaster humifusa (Dammeri)

Prostrate form, with bright red berries, small green leaves. Excellent for Rockeries.

10-12" spread @ \$1.00 each

Cotoneaster Franchetti:

An upright shrub with long arching branches covered by scarlet berries. Leaves with grey tomentum on lower surface.

30-36" @ \$1.25 each

3 to 4 ft. @ 1.50 "

Cotoneaster Parneyi:

Resembles the preceding variety for growth but has darker green and larger leaves. Also has much larger berries of deep red color. A profuse grower.

24-30" @ \$2.50 each

36-42" @ 3.50 "

Cistus cyprius:

A small shrub with showy white flowers which have bright red spots at base of petals.

4-6" @ .50 each

Cistus purpurens:

Rose-pink flowers with maroon spots at base of petals. *Cistus* love a hot, sunny location and do not need much water after once established

8-10" @ .50 each
12-14" @ .75 "
16-18" @ \$1.25 "

Choisya ternata, Mexican Orange:

This shrub loves a sunny dry location. Has beautiful foliage and fragrant white flowers in spring.

24-30" @ \$1.25 each

Cytisus or Brooms:

Brooms will thrive best in sunny dry locations and do well even in very poor soils. Early flowering and fine for cutting. Rather compact growth.

Cytisus, *Praecox*:

Cream-colored variety:

9-12" @ .50 each
18-24" @ 1.00 "
30-36" @ 1.50 "

Cytisus, *scoparius* Andreanus:

This is a fast growing red and yellow sort.

9-12" @ .50 each

Hybrid Broom (Stanford var.)

Cardinal red and yellow flowers.

9-12" @ .50 each

Hybrid Broom (Dorothy Walpole var.)

Pink and yellow flowers.

9-12" @ .50 each

Hybrid Broom (Lord Lambourne var.)

Crimson and yellow flowers with a tinge of pink.

9-12" @ .50 each

Hybrid Broom (Daisy Hill var.)

Brown and cream. A peculiarly blended, unique color combination.

9-12" @ .50 each

Daphne Odora, Pink:

Earliest spring flowering evergreen shrub with variegated leaves. Fascinating, bewitching fragrance.

4-6" @ .50 each 9-12" @ \$1.00 each
6-9" @ .75 " 12-15" @ 1.50 "

Daphne Odora, White: Dark green foliage with flowers of pure white color. Flowers a few days later than preceding variety. Sweetest fragrance of all. 4-6" @ .50 each 9-12" @ \$1.50 each
6-9" @ 1.00 "

Daphne Cneorum, or Rock Daphne:

Rose colored flowers. Excellent for Rockeries. Fragrant.

4-6" spread @ .50 each 9-12" spread @ 1.50 each
6-9" " @ 1.00 "

Erica, or Heathers

Erica ciliaris:

Fern-like bright green foliage, rose-pink flowers. A novelty. Summer blooming.

3-6" @ .35 each 9-12" @ .75 each

Erica carnea:

Rose-red flowers. Late winter and early spring blooming.

3-6" @ .35 each 9-12" @ .75 each

Erica Mediterranium hybrid:

Winter blooming. These tiny pink flowers smile at us all winter long.

5-6" @ .25 each 8-10" @ .50 each

6-8" @ .35 " 10-12" @ .75 "

Erica calluna vulgaris:

Scotch Heather. Summer blooms

3-6" @ .25 each

Erica calluna flora pleno:

A distinct improvement over the old favorite Scotch Heather. Double pink flowers. Summer blooms.

3-6" @ .50 each

Erica stricta:

Upright growing. Bright pink flowers in summer. Fine for large borders.

6-8" @ .35 each 30-36" @ \$1.50 each

10-12" @ .75 "

Erica daboccia or menziesia:

Irish Bell Heather. Purple flowers. Fine for Rockeries. Lily-of-the-Valley like flowers.

3-6" @ .25 each 8-10" @ .50 each

6-8" @ .35 " 10-12" @ .75 "

Euonymus japonica:

Glossy green leaf. Fine for hedges.

8-12" @ .35 each -- Per dozen \$3.50

12-15" @ .50 " -- " " 5.00

15-18" @ .75 " -- " " 7.50

50000 1122.12 20.
1934

Euonymus jap. aurea variegata:

Somewhat more dwarf and slower growing than the plain green form. 6-8" @ .35 each 10-12" @ .75 each
8-10" @ .50 " Specimens @ \$1.50 each

Euonymus jap. radicans argenteo marginatus; Silveredge Creeper:
Fine for Rock walls.

3-4" spread @ .35 each 4-6" spread @ .50 each

Euonymus, Pres' Gauthier:

A shrub of irregular growth. Has large light green and silver variegated leaves.

6-8" @ .35 each 10-12" @ .50 each

Escallonia Donardensis:

A new, rare rapid growing shrub with arching branches. Small apple-blossom like flowers.

12-15" @ .75 each

Firethorns (See Pyracantha)

Genista hispanica:

Spanish Broom. Yellow flowers all summer. Fine for cutting.

16-18" @ .75 each

Honeysuckle Bush (see Lonicera nitida)

Ilex or Holly:

2½ to 3 ft. @ \$3.50 each 4 to 5 ft. @ \$7.50 each
3½ to 4 ft. @ 5.00 "

Ilex, Golden King:

12-15" @ \$1.00 each 24-30" @ \$3.50 each
15-18" @ 1.50 "

Ilex, Silver Queen:

Priced same as Golden King.

Ilex lanceolatus, Lanceleaf Holly:

A new variety of holly with long narrow shiny dark green leaves.

18-24" @ \$2.50 each 30-36" @ \$5.00 each
24-30" @ 3.50 "

Kalmia latifolia:

An eastern mountain laurel. In June miniature white flowers with a pinkish tinge are borne in clusters.

15-18" @ \$1.50 each 30-36" @ 3.50 each
24-30" @ 2.50 "

Laurus cerasus, Common English Laurel;

Fine for hedges.

15-18" @ .35 each 24-30" @ .50 each - clipped
18-24" @ .35 " 30-36" @ .75 " - "

Specimen plants @ \$1.50 each

Laurus cerasus zabeliana:

A spreading type sometimes called Russian Laurel. Small narrow leaves. Rather dwarf in habit.

12-16" @ \$1.00 each

Laurus tinus:

A fine shrub and an old favorite of ours. Suitable for western Oregon and Washington only. Has red buds and white flowers in flat clusters. Blooms during winter and spring.

12-15" @ .50 each 18-24" @ \$1.50 each
15-18" @ 1.00 "

Lonicera nitida:

A Japanese Honeysuckle bush with tiny leaves. Very bushy.

8-12" @ .50 each

Magnolia grandiflora:

A well named "grand flowering" specimen tree. Long shiny evergreen leaves. Flowers white with extremely pleasing fragrance. Summer flowering.

3 to 4 ft. @ \$2.50 each

Mexican Orange (see *Choisya ternata*)

Osmanthus illicifolium variegata:

This shrub can stand abuse if need be, and still maintain its novel dignity. Sheared specimens:

18-24" @ \$2.50 each 30-36" @ \$5.00 each
24-30" @ 3.50 "

Pernettya mucronata:

South American Huckleberry. For winter color in your garden this shrub is of exceptional merit because of its attractive edible berries which are prominently displayed. May be had with maroon, white or pink berries. Please state when ordering which color of berries you prefer.

9-12" @ .75 each	15-18" @ \$1.50 each
12-15" @ 1.00 "	18-24" @ 2.50 "

Pyracantha, Firethorn: (Lalandi variety)

This variety has large orange berries.

18-24" @ \$1.25 each	3 to 4 ft. @ \$2.50 each
24-30" @ 1.50 "	4 to 5 ft. @ 3.00 "
30-36" @ 1.75 "	Larger shrubs @ \$5.00 each

Pyracantha yunnanense prostrata:

This is a scarlet-red berried variety. Late maturing and of spreading habit.

12-16" @ .75 each	18-24" @ \$1.50 each
Larger specimens @ \$2.50 each	

Pyracantha formosiana:

Small orange-red berries.

Priced the same as Lalandi variety.

Pyracantha hybrid:

This is a variety with tomato-red berries. A very new firethorn.

Potted plants with 4-6-8 runners @ .50 each

Photinia serrulata:

A large growing shrub for sunny locations. Has laurel-like leaves of richest bronze-red color while young.

18-24" @ \$1.75 each	30-36" @ \$3.50 each
24-30" @ 2.50 "	

Rhododendron hybrids: (Alice variety)

A deep rose-blotched vermillion.

12-15" @ \$2.50 each	18-24" @ \$5.00 each
15-18" @ 3.50 "	

3 to 6 ft. specimens; well branched and heavy buds.
\$7.50 to \$15.00 each

Rhododendron (Album elegans)

Pale mauve flowers turning to white.

24-30" @ \$5.00 each

Rhododendron (Madame Mason)

White flowers with a yellow blotch.

12-15" @ \$2.50 each	3 to 4 ft. @ \$5.00 each
18-24" @ 3.50 "	

Rhododendron (Michael Waterer)

Crimson flowers with black blotches.

12-15" @ \$2.50 each 15-18" @ \$3.50 each

Rhododendron (Lord Roberts)

Large dark crimson flower trusses with black throats.

12-15" @ \$2.50 each 18-24" @ \$5.00 each

18-24" @ 7.50 " 3 to 3½ ft. @ \$25.00 each

Rhododendron (Rosamundi)

Early, light pink flowers. Compact growth.

15-18" @ \$3.50 each 18-24" @ \$5.00 each

Rhododendron Species: (decorum variety)

Very large white flower tinged pink. Fine foliage. Tall growing. Flowering size -

12-14" @ ~~\$1.50~~ ^{\$3.50} each

Rhododendron (Wilsonii)

A neat shrub of compact growth. Delightful small pink flowers.

12-14" @ \$1.50 each

Rhododendron (yunnanense)

Small foliage and graceful branching habit with light pink to white flowers which are spotted brown in handsome pattern.

18-24" @ \$3.50 each

Rhododendron (racemosum)

A miniature evergreen rhododendron of great merit for rock gardens, literally covered with small pink flowers in early spring. A prized jewel for the rock garden.

4-6" @ .75 each

6-8" @ \$1.25 each

Baby Rhododendrons:

A group of new hardy shrubs for the coast climate with small evergreen foliage. Dwarf habit of growth and masses of flowers in early spring of many novel colors and forms, some resembling Azaleas. As they are of very recent introduction here, only small plants of pot grown size can be offered. They will make ideal rock garden subjects as they never grow very large. Soil requirements the same as for large Rhododendrons. Our first offering of these select pot-grown specimens is limited to the following species:

Rho. hemitrichotum

" intricatum

" radinum

" racemosum

" hypophaeoides

" ciliatum

1 1/2" 3" pot size priced @ \$1.00 each - 3 for ~~\$3.50~~

3 1/2" 4" " " " @ 1.50 each ✓ ~~\$2.00~~

Rho. flavidum

" fastigiatum

" haemaleum

" citriniflorum

" Griersonianum

~~\$2.50~~

Skimmia japonica:

This evergreen shrub is of nice compact growth. Has attractive scarlet berries in winter and is of great merit for shady, sunless locations. Its early white flowers are fragrant. We have male and female plants (the former of larger size at same price). Both forms are necessary to assure crop of berries.

4-6" @ .50 each

10-12" @ 1.50 each

6-8" @ .75 "

14-16" @ 2.50 "

8-10" @ 1.00 "

Large specimens from \$3.50 to \$12.50

Viburnum Davidianum:

Another evergreen shrub little known here. Has attractive dwarfish appearance and is almost prostrate in habit. There are small clusters of white flowers in spring. Plant in full sun.

4-6" @ .50 each

6-8" @ 1.00 "

8-10" @ 1.50 "

DECIDUOUS SHRUBS

Acer palmatum or Cutleaf Japanese Maple:

A unique shrub with bright red lacey foliage. Dwarf growing.

18-24" @ \$2.50 each

Althea or Rose of Sharon:

A shrub of upright growth. Late summer blooming. Several colors.
2-3' @ .75 each 3-4' @ \$1.00 each

Azalea Altaclarensis:

Large flowers of a deep orange yellow.
24-36" @ \$5.00 each

Azalea Mollis:

In bright yellow and salmon colors.
12-15" @ \$1.00 each 15-24" @ \$1.50 each
Large specimens to \$3.50 each

Azalea calendulacea:

Flame azalea of late spring blooming. Intense yellow to apricot and copper tints.
18-24" @ \$1.50 each

Azalea luteum:

An azalea with sweet scented yellow flowers.
2-3' @ \$3.00 each

Azalea poukhanensis:

Low spreading habit of growth with large lavender flowers.
12-14" @ \$1.00 to \$1.25

Azalea dauricum (Rhododendron):

Very early Feb. and March flowering on bare branches with showy purple blooms of novel charm.
12-14" @ \$1.25 to \$1.50

Azalea mucronulatum (Rhododendron):

Similar to preceding. Same price.

Azalea Schlippenbackii:

The Royal Azalea of Japan. Large flowers of clear transparent pink, the finest of colors, slow growing of globular habit.
12-14" @ \$1.50 each 16-18" @ \$2.50 each

Azalea occidentalis:

A native with creamy white sweet scented flowers in late spring.
12-15" @ \$1.25 each

Barberry Thunbergii:

A shrub with bright green foliage which turns scarlet in the fall. Low growing habit.
12-15" @ .50 each 16-18" @ .75 each

Barberry purpurea:

This variety has bright red foliage all summer; otherwise similar to preceding.
12-15" @ .60 each 16-18" @ .75 each

Butterfly Bush or Buddleia:

A tall growing summer flowering shrub with pale lavender flowers.
2-3' @ .75 each

Buddleia Ile de France:

An improved variety with much darker colored flowers, almost purple and sweet scented.

24-30" @ \$1.00 each

Ceanothus or Mountain Lilac: (Marie Simon variety)

A pink mountain lilac. All summer flowering, compact growing.

24-30" @ .75 each. Larger sizes @ \$1.25 each

Ceanothus (Gloire de Versailles var.)

This variety has light blue feathery flowers all season.

15-18" @ \$1.00 each 20-30" @ \$1.50 each

Crepe Myrtle:

During the summer months this shrub is covered with large panicles of tissue crepe-like flowers. Color red. \$1.50 each

Daphne mezereum:

A winterblooming daphne, extremely fragrant reddish purple flowers from January to March.

12-15" @ .75 each 15-18" @ \$1.00 each

Forsythia or Goldenbell:

A spring flowering shrub with bright yellow flowers.

2-3' @ .75 each 4-6' @ \$1.50 each

Hydrangea paniculata grand. or Peegee Hydrangea:

A shrub with large cone-shaped creamy flowers in late summer, which turn bronze with age.

2-3' @ .75 each

Hydrangea P.G. Standard:

This is a tree form which is fine for individual specimens in the garden.

3-4' @ \$1.50 to \$2.50 each

Hydrangea hortensis:

Garden sorts with pink, blue and white colors.

8" @ .50 each 12" @ .75 each

Larger sizes to \$1.50 each

Lilacs:

Grafted hybrids in many colors. 3-4' @ \$1.50 each.

Common Lilac in white or purple. 2-3' @ .75 each

Magnolia soulangeana:

FLOWERING TREES

Nothing is more appealing than the colorful effect of trees in bloom and no garden or lawn is quite complete unless it has one or more of the spring blooming trees. When first planted they must be pruned freely and cannot be expected to flower the first season. They require a minimum of care and grow in beauty and value year after year.

Flowering Peach, Double Scarlet:

In earliest spring before the leaves begin growing this tree produces the brightest and showiest masses of blooms of bright red color. 3-4' @ \$1.00 each 4-5' @ \$1.50 each

Flowering Peach, Burbank:

FERTILIZERS AND PEAT MOSS

NU LIFE FERTILIZER - An organic fertilizer compound containing all the essential elements of plant food in the proper proportion and insures best results if applied as per directions on containers. The richness of this fertilizer brings out astonishing results and its reasonable cost is a welcome feature to garden maintenance.

2 lb. carton @ \$.25

25 lb. bags @ \$1.25

5 " " @ .50

50 " " @ 2.00

10 " " @ .75

100 " " @ 3.50

RAW BONE MEAL - A most dependable slow-acting fertilizer, harmless to roots and influencing profuse flowering of plants. Two to three months elapse before results become noticeable, but the result may last a year or more. Use 100 lbs. on lawns of 2000 square feet of surface for a good application.

Price per 100 lb. sack \$3.00

" " 50 " " 1.75

Less than 50 lbs., 4¢ per lb.

PEAT MOSS - While not a fertilizer this is an ideal natural humus that acts as miniature sponges in your soil. Absorbs and holds many times its own weight in water. By applying this on your garden and spading it in it acts both as a soil loosener and moisture retainer. Serves as an excellent mulch. Avoid putting it around lime-loving plants. Per bale, weighing between 125 to 150 lbs.,

\$2.50, f.o.b. Portland
